

POC-NOC

Attached and below is a **mandatory** instruction for ALL INSTALLATION HEADS and managers on Winter and Cold Weather Safety

This instruction should be delivered no later than **Saturday, January 24th**.

=====

Mandatory Instruction

To be delivered to all employees

January 23, 2026

A major winter storm and extreme cold temperatures are going to impact a large part of the Nation. Some impacts have the potential to be severe. Please pay close attention to your local weather and use extreme caution to remain safe.

Below are the numbers and names of four safety talks located in LMS to use to communicate with employees as you prepare for the adverse winter weather. These talks are also attached to this message for your convenience.

- 2038 Winter Walking Safety
- 2040 Winter Weather Conditions
- 2159 Tips for Winter Driving
- 2165 Protecting Yourself from Cold Stress

Thank you for making everyone's safety during winter weather a top priority.
